# SHOOTER'S CLAMP SET

### Introduction:

The Hyskore Universal Shooter's Clamp Set is designed to give the shooter a light weight, portable mounting fixture for spotting scopes, and umbrellas-and act as a gun support. The clamp will fix to almost any vertical or horizontal surface such as benches, fences, trees or vehicles.

## ADJUSTING THE CLAMP

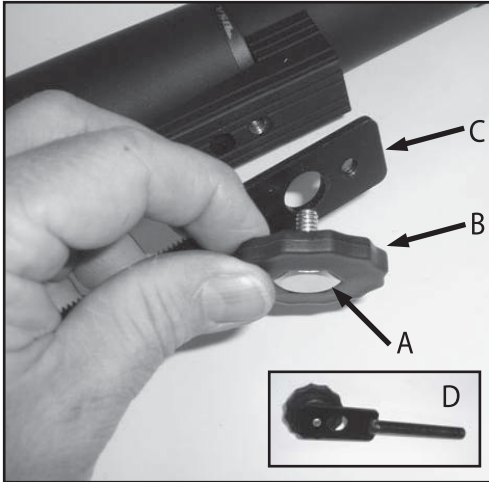

Turn the handle counter clockwise until it stops. This will provide maximum opening and allow maximum travel to tighten the clamp. The clamp has a maximum opening of 6 3/4" and a depth of 3 3/4".

## FIXING THE CLAMP IN PLACE

Place the opening around the support member you intend to use. Slide the handle side towards the support until it makes contact. Tighten until secure.

## MOUNTING A SPOTTING SCOPE, CAMERA OR BINOCULARS

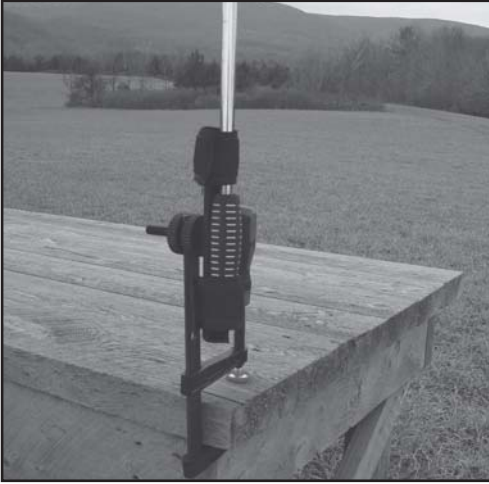

To mount a spotting scope, insert the 1/4" x #20 shoulder bolt "A" through the spanner knob "B" so that the hex head is fully engaged in the hex socket "A". Fit the shoulder of the bolt through the mounting bracket "C" and thread into the screw boss (mounting hole) in the scope. Tighten just enough to hold the scope in position. The small threaded hole "D" is for storing the bolt & knob.

Using the 2 knobs, as shown, fit the scope/bracket assembly to the bar of the clamp - adjust laterally and tighten.

## USING THE UMBRELLA BRACKET

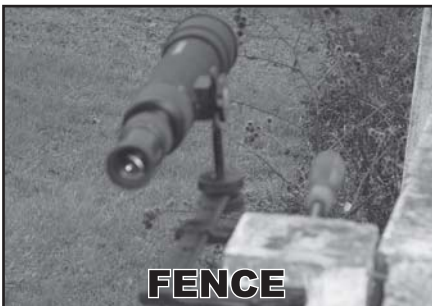

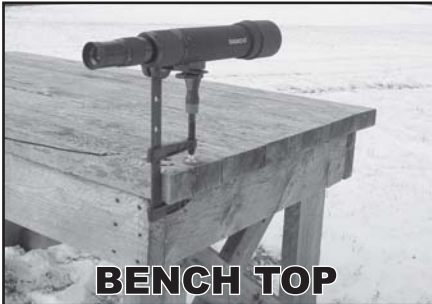

To fit an umbrella use the velcro straps, as shown, and mount the clamp using two knobs.

## USING THE GUN REST

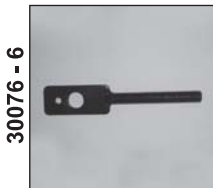

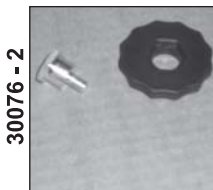

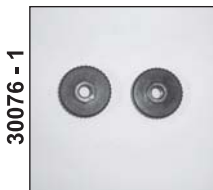

To use the gun rest the clamp must be fixed to a vertical surface.
